How To Use This Index

By Tracy Wester/CMG

All articles which appeared in **Computer News** November 1, '80 to April 15, '81, Volume 6, Issue Numbers 1-11 are listed in this index.

As in the October 31, '80 Index, we have included a list of the products of the Computer Groups divisions, along with listings of the Instrument and Calculator Products Group divisions that contribute to **Computer News**. This is not a complete list; use it only as a guide.

The following table cross-references the publication dates to the actual Volume and Issue Numbers.
