Announcing . . .

The **Next Generation**
200LX!

Dear Palmtop Enthusiast,

Did HP drop the ball?

We think so. HP introduced the HP 200LX palmtop PC in 1994. Despite a loyal and vocal user community, it seems that HP will not improve upon the machine.

Well, if HP won't upgrade the HP 200LX, we will! We don't have HP's resources, but we may have something better; the efforts of palmtop programmers and hardware engineers throughout the world.

We call the result the **Next Generation 200LX**.

PC adjunct or stand-alone?

The advent of Windows CE has drawn many mobile professionals away from the HP DOS-based palmtops. One of the main attractions is desktop synchronicity, making the Windows CE devices PC adjuncts rather than stand-alone computers.

However, many fellow users like the HP 200LX because of its self-sufficiency. In fact, I view my desktop computers at home and work as extensions to my main HP 200LX. After all, it is my palmtop that I depend on most as it is always available, any time, any place!

Hal Goldstein,
Publisher, The HP Palmtop Paper

HP Palmtop is still King

Many HP 200LX users moved to Windows CE only to return. They came back because they missed the 200LX's built-in applications, and the extraordinary amount of freeware, shareware, and commercial DOS software available for the palmtop.

Those who had used the palmtop to store information realized they missed the palmtop's powerful database engine that supports built-in Phone, Appointment Book, Notetaker, Database, and World Time.

Those dealing with numbers found that nothing could match the full implementation of Lotus 1-2-3, the extraordinarily simple yet powerful HP Calc modules, and the numeric keypad.

And those who required and desired specific vertical applications, web-surfing, electronic dictionary, email and all manner of games once again appreciated the palmtop's DOS capability, versatility and vast array of inexpensive software.

Here at Thaddeus Computing, I can have my pick of Windows CE and DOS devices. Guess which handheld I use? It's the Next Generation 200LX. This catalog describes that machine and its enhancements.

Next Generation 8 and 32 MegaByte DoubleSpeed 200LX

Speed and memory advances have significantly changed the face of HP palmtop computing for the better, expanding the field of possibilities and features. What follows, and what much of this catalog addresses, are the new and exciting opportunities offered by the Next Generation 200LX with twice the speed and 16 times the memory.

Software Carousel

In 1995, the previous best-seller in the DOS world, Software Carousel, was customized for the HP Palmtop. This program represented a real advance of palmtop productivity and enjoyment. It meant that a user could switch back and forth to different DOS applications with the same ease he could switch between built-in applications.

So, for example, if I want to switch to my WWW/LX web browser, I press Ctrl 2. Then I switch to WordPerfect 5.1 with Ctrl 3. Ctrl 4 brings me to a game of chess. Ctrl 5 to a vertical application based on a personal hobby. At any time I can press Appt to get to my todo list, Phone for my contacts, or 1-2-3 for my current spreadsheet.

The Heart of the Next Generation 200LX: "Super Software Carousel"

The only problem with the above solution is that I kept eating into my flash card disk space, as I had to allocate between 300K and 512K for each DOS session described above, and I had more applications and

Products** P.14

CD InfoBase P.15

**8/32 MB
DoubleSpeed** P.4-5

**Software
Carousel** P. 8

**Super Software
Carousel** P.6-7

games I wanted to add. The introduction of a file launch program, HDM (HP DOS Menu) solved this dilemma. This program works like the palmtop's application manager (More key), but launches applications from DOS.

What we've done in our "Super Software Carousel" product is pack two Software Carousel sessions with the best PAL and DOS freeware and shareware games and applications ready to use. Software Carousel and Super Software Carousel can be run from a flash card. However, Super Software Carousel running at optimum speed on an 8 or 32 megabyte doublespeed palmtop makes for a perfect fit and really turns the HP 200LX into the Next Generation 200LX.

Enhancements for your Next Generation 200LX

You need to back up your Next Generation 200LX quickly; you may want to print from it; and you will want to power it efficiently. The Next Generation 200LX has a free PC Card slot for a fax/modem card. Now you can use your palmtop for email and to surf the net. Read on.

Trans Digital PC Parallel Port Card

In seven years of publishing The HP Palmtop Paper, the hands-down best piece of advice we've ever given is "Backup! Backup! Backup!"

There are several backup solutions, but when you're talking about 8 or 32 megs of data and programs, those solutions can be either too slow or too insecure. For this reason (and others), most users will appreciate the Trans Digital PC Parallel Port Card. Built-in software lets you backup directly to your PC or ZIP drive via the parallel port.

You can also use this card to print directly from the palmtop to any standard printer.

Battery Life: Rechargeables and ABC/LX

The combination of speed upgrade, memory upgrade, and lots of task switching with Software Carousel can significantly decrease your battery life. The hardware upgrades cost roughly 25% in battery life reduction, and Software Carousel takes a bit more. I am a heavy palmtop user and used to go through a set of alkalines in less than a week.

Recently we discovered some excellent NiMH Rechargeables that seem to have been made for the palmtop. After a 16 hour initial charging, I can use the palmtop without worry. At night, when I remember, I simply plug in my palmtop with the HP AC Adapter to recharge.

Recently, I added ABC/LX to my palmtop arsenal. Although not absolutely necessary, ABC/LX allows me to correctly monitor battery life and optimize the life of these batteries.

Email, Fax and Web Browsing

The empty PC card slot available on 8 meg and 32 meg palmtops is perfect for a Fax/Modem Card. Fax shareware and the WWW/LX web browser and email reader turn the 200LX into an incredibly useful, on-the-go communications device.

Palmtop Repair

HP usually charges \$220 no matter the repair. They don't fix your palmtop, but swap parts from other palmtops. We realized we could do the same for almost \$100 less. Our expert technicians can fix your palmtop and get it back to you in a matter of days.

The point of this letter is to give you an overview of the possibilities for your palmtop. I hope you'll spend some time looking through our first catalog. . . there's plenty more than I've had room to mention here!

Sincerely,

Hal Goldstein/Publisher
The HP Palmtop Paper

P.S. We have been able to purchase a number of hard-to-find HP connectivity kits and flash cards, as well as HP 95LXs, HP 100LXs, and HP 1000CXs. Purchasing these used items, backed by our warranty, our commitment to customer satisfaction and our money-back guarantee, makes for an excellent value.

BREAKTHROUGH

SUPER Software Carousel

*Windows-like task-switching
between 40 of the all-time
BEST apps!*

**All pre-configured at
an amazingly low price!**

Just like Built-In Apps!

Applications: Ready to go immediately!

Games: Years of challenging fun!

What makes Super Software Carousel **SUPER**?

We started with Software Carousel, and then we put on the best software we've found in the last seven years.

Check out the Software Carousel ad on page 8. Notice the part about Twelve Palmtops in One? Well, with **SUPER SOFTWARE CAROUSEL**, we're giving you **two** of them in one installation. Forty new programs, just like built-ins.

The first is a dedicated Games palmtop.

The second is a dedicated Power Apps & Utilities palmtop.

Already configured—ready to go—just install it from the CD or have us do it (you'll still get the CD).

Think of it as having several different palmtops in one. (See HDM screens above.)

Of course, you can add and delete programs as memory allows. (The HP Palmtop Paper's CD INFOBASE has around one thousand for you to choose from!)

SUPER Software Carousel!

It begins with Software Carousel.

But we've done all the work and provided the **BEST** available free-ware and shareware in one pre-configured package! All **easy-to-use** programs that will tremendously expand your palmtopping power. **Suddenly** your palmtop is loaded with all the best freely available software!

Suddenly you have so many new Games, Programs and Utilities that it will take you months just to explore it all!

Suddenly you can do all the things you always wished you could, from spellchecking to hypertext viewing to playing chess. And far more!

Plug 'n Play: Built In-Like Applications

No downloading. No configuration. No frustrating trial and error. You could spend months of tedious research and experimentation doing what Super Software Carousel lets you do immediately. The ability to mount this versatile array of business and pleasure enhancing products to your palmtop is more than just another interesting option...

It's the Whole Point!

This is what seven years of HP palmtop development and innovation has been moving toward. This is the full realization of the palmtop's potential.

And it's just the beginning! You can add all the programs to Software Carousel that your palmtop's memory will bear. (You can delete programs too, if you like.)

It's a quantum leap in HP Palmtop computing.

And it adds whole new dimensions to having a PC in your Pocket!

Installation: Fast and Painless!

Super Software Carousel comes on CD. If you are upgrading or buying a new or used palmtop, we can install SSC before we ship.

Or, you can easily install Super Software Carousel yourself. Simply transfer mirror subdirectory from the CD to your palmtop, make a few minor file edits, and you're ready to go!

If you'd like, you may send your palmtop in to Thaddeus to have SSC installed free (normal shipping applies.)

Everyone who orders Super Software Carousel will receive the CD and complete documentation.

System Requirements

Includes the complete version of Software Carousel, plus all additional software. Runs on HP 100LX, 200LX, or 1000CX on flash disk or in system RAM (C drive). Full package requires 5 meg: approximately 2 meg for applications, 2 meg for games, and 1 meg for Software Carousel sessions. Even more applications than listed are included on CD.

GH P R O D U C T !

The Heart of the NEXT GENERATION LX!

Like fast task-switching? Like the Built-In Apps?
How About 40 More!

Pre-configured with the very best freeware and shareware Games, Utilities and Applications available for your Palmtop! (List subject to change.)

Applications

HV (Hypertext Viewer)

HTML browser to view Web downloads.

PE (PalEdit)

A MEMO-like editor with many enhancements including spellchecker.

VR (Vertical Reader)

Lets you read doc files and electronic books, vertically on the palmtop.

DBV (DataBase Viewer)

Fast phone, appt and database file viewer.

View

Lets you view files from a variety of word processing formats.

Tune

Metronome and musical tuner.

ZIP

Fast PC to palmtop serial transfer program.

PalDraw

Palmtop CAD drawing program.

PC Outline

Enter thoughts, plans, ideas, and organize them into a hierarchical structure.

Stereo Shell

DOS File Manager.

garlic

Fixes corrupt database files.

PKZIP

File archiver/compressor.

LHA

File archiver/compressor.

LXPIC

Lets you view GIF, JPG, BMP, PLX graphics files.

Andrew3

More readable palmtop font.

CloseFlr

Close Filer to save memory.

Buddy

Zillion utilities in one.

fastdb

Speeds up database programs (e.g. Phone).

MoreEXM

Breaks system limitation of 7 EXM files. Enable software like ZOOM.

Typing Tutor

Type faster on the palmtop.

Zoom

Wonderful Magnify-like program that enlarges and makes more readable any section of the screen in built-in apps. For example, can blow-up datacard for more readable phone numbers.

Subst

DOS 5 utility superior to ASSIGN.

Vclock

Whole screen clock and timer.

Here's a brief preview of what SUPER Software Carousel does for your palmtop!

Apps

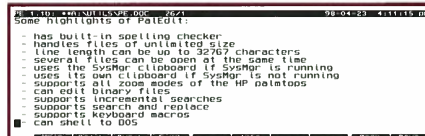

Use HV and LXPIC to surf the web and view graphics.

Flowcharts, schematics, and maps with CAD-like PalDraw

LXPIC can view PCX, BMP, JPG, GIF files on your palmtop.

Advanced editing with PalEdit with spell checker.

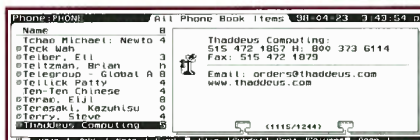

Read literature or documentation on palmtop sideways.

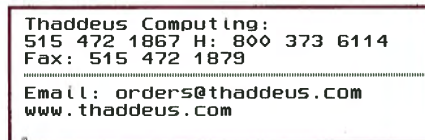

Visible Clock: Full screen clock, timer, stopwatch.

Zoom Anywhere

Zoom blows up any phone book, appointment book, or database item. Above is a before and after view.

All-time best-selling software for DOS task-switching. . .

SOFTWARE CAROUSEL

***No more palmtop
memory limitations!***

Now you can switch between Lotus, a chess game, and a spellchecking text editor as easily as you switch between Memo and Phone! With Software Carousel, that's just the beginning!

- ALL programs task-switch like BUILT-IN programs!
- Every program can use maximum memory!
- No more Out of Memory messages!
- Have as many Apps, Games and Utilities open as RAM/FLASH disk space allows. . . at the same time!
- Easily customize to your exact needs!
- Simple hotkey combos switch between DOS sessions. Like switching between differently configured palmtops! Up to twelve!
- Multiple DOS sessions open at once! Devote an entire session to a large Lotus or Database file. Or open two Lotus spreadsheets at once. Switch between them easily!
- Runs on any 100/200LX, on flash card or in system memory. More memory, more sessions!

Your palmtop can be up to...

12 Palmtops in 1!

...with Windows-like flexibility!

Have up to 12 Palmtops in One!

An easy-to-use control panel allows you to customize up to 12 DOS and/or System Manager sessions to your exact needs.

Switch between DOS and Built-In programs as easily as you open NoteTaker!

Don't know what to do with all this new palmtop potential? Check out **SUPER Software Carousel** on pages 6-7 to see how Thaddeus Computing can save you many hours of loading and configuring, and provide you countless hours of happy and productive palmtopping!

Great with 8/32 MB DoubleSpeeds or Flash Card!

Talk about a Next Generation 200LX!

Combine Software Carousel (and especially **SUPER Software Carousel!**) with the speed and memory of an Upgraded Palmtop, and you're talking about unleashing the full potential of your palmtop!

Works with Flash card memory too! (Not quite as fast.)

So if you already have an Upgraded Palmtop, or you're thinking about it, Software Carousel is the ideal way to make the most of it!

And, of course, we offer a 30-Day Money-Back Guarantee so you can find out for yourself!

New Version: BUY or UPGRADE

Thaddeus Computing Software Carousel 7.0 (v.6.92 was the previous version) now supports different device drivers in different sessions. Fax/modem card or stacker users will find this especially handy.

PLUS! An all new, greatly improved electronic User's Guide makes learning and configuring much easier!

Millions of people have purchased Software Carousel; and the Palmtop Edition, new or upgrade, is just too palmtop-enriching to pass up.

But don't order until you've looked at the **SUPER Software Carousel** offer on pages 6-7!

How do I Buy?

Simple. If you only want Software Carousel (as opposed to SUPER Software Carousel), we'll send it on a 3.5 Disk with an easy-to-use electronic User's Guide that will walk you through the installation and configuration process.

Software Carousel NEW

\$79.95

Software Carousel UPGRADE*

\$19.95

***How do I Upgrade?**

To take advantage of the Software Carousel Upgrade offer, you must supply Proof of Purchase of your current version. The easiest way to do this is to email us your serial number, or send us a photocopy of your Software Carousel Manual or your disk. We can also accept any other Proof of Purchase such as a receipt or confirmation from the company where you originally purchased. Fax, mail or email proof with your order.

The Trans Digital Parallel Port PC Card *lets you:*

Especially useful for Upgraded-Memory Palmtops!

**Fast
and
Easy To
Use!**

IF YOU HAVE any HP palmtop with 4 or more megs of memory, then you either know how long it takes to back up... or you're not backing up. (Not backing up is not a solution.)

And if you ever print from the HP palmtop, or want to, you might find it a rather cumbersome process. There are many times when you might have the need to upload, download, backup, print or transfer large amounts of data. Having a parallel port on your palmtop makes it fast and easy.

**Built-In
Software
and
More!**

Filer-like and XCOPY-like software is already in the Trans Digital PC Card's low-power flash ROM for fast backup and file transfer. Setup is easy, and transfer is extremely fast and straightforward.

This can be important to any palmtop owner, but it is critical when you have many megabytes of data to transfer and protect.

Except for the lack of a parallel port, the HP Palmtop has always been like a DOS PC in your pocket.

Now the similarity is complete, and now your palmtop can have the full speed connectivity of a desktop!

Special Feature

for Upgraded Palmtop owners:

Our version of the Trans Digital PC Card also has the drivers DoubleSpeed and Upgraded-Memory palmtops need in its flash memory!

Yes, these drivers have already been supplied on a floppy, but it's nice to have them on a flash card for those unexpected little disasters. *Very nice.*

We Also Offer...

**Greenwich Instruments
Serial to Parallel Printer Cable**
Another way to print from your palmtop!

If you need fast printing and back up, we recommend the Trans Digital PC Card.

However, you may just need to print occasionally, your PC card slot may be already occupied, or you want a more economical solution. In that case we recommend the Greenwich Instruments Serial-to-Parallel Printer Cable.

Simply plug the 10 pin serial end into the palmtop. Plug the other end into the printer. Follow the 30-second instructions to make sure palmtop is correctly configured. Then print from MEMO, 1-2-3, Phone, other built-ins, or your favorite DOS program.

\$69.95 #GSPC

Trans Digital Parallel Port PC Card

WWW/LX PLUS! New Version! Email/Web Browser

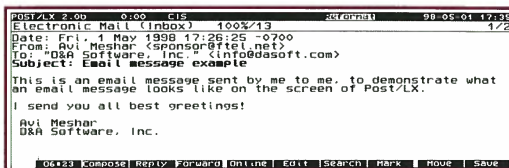

Total Internet Solution in your Pocket! Created for Palmtops!

- Email
- Internet
- Intranet
- Web

In Your Pocket

Surf the web and view graphics.

Send, receive and manage email.

Powerful Email Package:

WWW/LX PLUS! is a palmtop email package:

- Send and Receive messages
- Manage all messages on screen
- Have multiple email addresses
- Have multiple ISPs
- Read and post to Newsgroups
- Sophisticated message filtering
- Extensive context-sensitive help

Graphical Web Browser:

WWW/LX PLUS! allows web surfing, complete with graphics! (See the Alta Vista screen shot above)

Surf the internet and intranets.

Download software directly into your palmtop.

Make the connection with ease!

A "TCP/IP Engine" manages all the aspects of connection to the Internet and your ISP (Internet Service Provider).

WWW/LX PLUS! Internet Software \$89.00 #WWWL

To upgrade your existing version of WWW/LX, please visit: www.dasoft.com

"Absolutely recommended!"

—Steffen Demuth

"I am amazed at how functional WWW/LX is! I can actually get onto the INTERNET and extract data I need. Wonderful, useful, functional program. Amazing!"

—Ed Morgan

"What an absolutely superb program! Thanks for a really great piece of work. I really think all palmtop users should go for this product. I really like how it runs from the Sys Mgr."

—Wade Robert

Megahertz 14.4 Fax/Modem Cards!

E-mail and Internet anywhere there's a phone!

Great for palmtops, and the perfect companion for WWW/LX Plus! You'll be up and running in no time! Supplies are limited and we're having trouble finding more, so if you want one, the time is now.

\$69.95 #MFMC

COMM Package:

Both WWW/LX Plus and the Megahertz 14.4 Fax/Modem Card \$158.95 #CPU

Complete POWER Solution!

Get these palmtop power products separately or together.

1350 mAh Nickel Metal Hydride Rechargeable Batteries (4-pack): *The best we've seen.*

RECOMMENDED FOR ALL PALMTOPS. Far and away the best we've ever used. You'll be pleasantly surprised at how long they keep your 100 or 200LX going. And because they recharge right inside your palmtop (with HP adapter), you don't need to remove and replace them for charging.

4-Pack NiMH Rechargeable Batteries \$24.00 #RBAT

ABC/LX Battery Monitoring Software: *ACCURATE Low Battery Warnings and More!*

Hassle-free software that accurately monitors your rechargeables (any rechargeables), and optimizes the fast-charge/trickle-charge functions to maximize battery life and performance.

ABC/LX Battery Monitoring Software \$34.95 #ABCL

HP 100/200LX Adapter (New & Used): *Anywhere you have a chair. . .*

As a rule of thumb, it's a good idea to have a few adapters. One in the office, one or two at home, one for the road etc. Gives batteries a rest and recharges them at the same time (if they're rechargeable!)

New HP 100/200LX AC Adapter \$39.95 #ADAN
Used HP 100/200LX AC Adapter \$24.95 #ADAP

POWER Pack:

Make ordering easy. Get everything at left (4-Pack NiMH Batteries, ABC/LX Software and NEW HP Adapter) as a single item.

\$98.90 #PPU

NEW! HP Palmtop REPAIR SERVICE!

Available worldwide!

All repairs... only \$125 #PTRS

Like Hewlett-Packard's repair service, Thaddeus Computing uses used parts to repair palmtops. Unlike HP, Thaddeus has a flat rate of \$125. HP charges \$220. Save \$95!

Normally, we ship units back within five days of receiving them.

So, whatever the problem, just send the palmtop in with a description of the problem and payment and we'll take care of it.

NOTE:

Thaddeus Computing reserves the right to return any equipment unrepaired along with full payment.

Free 90-Day Warranty

HP warranty voided by repair.

1 and 2 Year Warranty Extensions

Extend from 90 Days to One Year \$25 #1YRW

Extend from 90 Days to Two Years \$75 #2YRW

Shipping:

U.S. \$9.50 each. Non-U.S. \$35.00 each.

Outside the U.S.

Clearly label your shipping container "Used Equipment for Repair"

Use a trackable shipping method and provide daytime contact info!

We Buy USED PALMTOPS!

PLUS!

*Sell us one or more palmtops and
receive a FREE one year subscription to
Handheld PC Magazine!*

Here's what we'll pay for your HP Palmtop and accessories:

Palmtop in good working order and appearance*

HP 95LX (with manuals):	\$55
HP 100LX (with manuals):	\$75
HP 200LX (with manuals):	\$100

*We'll adjust the price if equipment works but has significant damage. Without manuals: 95LX deduct \$5, 100/200LX deduct \$10

Broken or damaged Palmtops**

HP 95LX (with manuals):	\$25
HP 100LX (with manuals):	\$35
HP 200LX (with manuals):	\$35

**Without manuals: 95LX deduct \$5, 100/200LX deduct \$10

Accessories

HP Connectivity Pack with cable and manual

HP 100/200LX; \$15, HP 95LX; \$5

Uncompressed Flash and SRAM cards

\$5.00 per megabyte (e.g. 40 Megs = \$200)

Modem cards, cables, software, chargers, other items

We'll look things over, but we may not be able to pay much. We'll adjust the price as appropriate if accessories come without manuals, or if other items are missing.

Used Accessories

CONNECTIVITY

HP Connectivity software lets you run HPCalc, Filer, Phone, Appointment, and Database in DOS mode from your PC. Files can be transferred using Filer on the PC in DOS (although some Windows users have reported difficulty). Original Connectivity kits come with manual, software disk, serial cable, and serial adapters for serial modems, PC, and printers. Because many customers have some of these parts and no need for others, they are divided as follows.

Connectivity cable, 100/200LX		\$15	#CABL
HP Connectivity Kit software/manual 100/200LX		\$30	#CSOF
HP Connectivity Kit Serial Adapters (4 pack)		\$15	#CCON
Connectivity cable, 95LX		\$10	#CAB9
HP Connectivity Kit software/manual, 95LX		\$25	#CSO9

PC CARDS

FLASH Cards (These come uncompressed)

5 MB flash card	\$75	#F5
8 MB flash card	\$120	#F8
10 MB flash card	\$150	#F10
20 MB flash card	\$250	#F20

SPECIAL
only while
supplies last!
\$119!

Hardly used 10 MB
cards originally manu-
factured by Sandisk.
Cards used for
Windows CE testing.

SRAM Cards

These are SRAM not flash and require a battery, which is included. They make for excellent backup of key files such as Phone and Appointment Book files, and doublespeed and memory drivers.

128K flash card	\$9.95	#F128
512K flash card	\$15.95	#F512
1 MB flash card	\$29.95	#F1

HP Dictionary/Thesaurus flash card \$59.95 #FD/T

(This PC Card Dictionary/Thesaurus was designed for the HP 95LX, but works reasonably well in the HP 100LX and 200LX. In particular the program runs in 40-column mode and uses a copy of HP 95LX MEMO which does not support bold or underline.)

ADAPTERS

AC Adapter, 100/200LX		\$24.95	#ADAP
AC Adapter, 95LX		\$19.95	#ADA9

MANUALS

200LX Manuals		\$15	#LXM2
100LX Manuals		\$15	#LXM1
95LX Manuals		\$15	#LXM9

CASES

(Leather and leather-like)

Wallet-style		\$25	#LCW
Slip-in-style		\$20	#LCS

IMPORTANT:

We will process all orders of in-stock products immediately. If any product you order becomes out of stock, we will notify you of your options.

USED Palmtops

**Warrantied. Guaranteed.
Proven. Affordable.**

Used means Like New!

We buy a lot of palmtops. We resell the best. We maintain very high standards for palmtops we resell. Those that don't make the grade are used for parts. As of this printing, **no Thaddeus Computing customer has ever exercised their 30-Day Return Option on a used palmtop!** HP engineering combined with Thaddeus Computing's quality control processes ensures that your Used palmtop will meet or exceed your expectations!

1998 CD InfoBase

"The CD Infobase is one of those happy situations where the value of a product vastly exceeds cost."

Here's what HP Palmtop users have to say about
**The HP Palmtop Paper's
CD InfoBase:**

"The CD InfoBase is the ideal reference source...."

—David Shier, Shier Systems

"All palmtop users would benefit from having this CD."

—Dara Khoyi, Florida

"It's a great product and well worth the money!"

—Thomas Rundel, Germany

"The CD is a downright bargain."

—Stan Dobrowski, TeamHP

"I thought the CD was terrific — very useful."

—Dorothy Colton, Hewlett-Packard

The HP Palmtop Paper's New 1998 CD InfoBase

It's not one product, it's thousands!

The new 1998 CD InfoBase is the most powerful tool for your HP Palmtop because it contains thousands of others. If you already have the '96 or '97 CD, here's your chance to get everything from 1997 for what the '97 ON DISK Back Issues alone would cost. If you've never owned a CD InfoBase, we urge you to take advantage of this no-risk offer today and see for yourself.

If you don't like it, simply return it for a full refund. You take no risk!
