Just Got Better!

Announcing *The HP
Palmtop
Paper's* **1999**

CD InfoBase

Praise for the CD InfoBase

"The contents of the CD are great! It's a great product and well worth the money!"

— Thomas Rundel, Datentechnik, Germany

"The CD is a downright bargain."

— Stan Dobrowski, TeamHP

"I thought the CD was terrific—very useful."

— Dorothy Colton, Hewlett-Packard

"All palmtop users would benefit from having this CD...."

— Dara Khoyi, Florida

"I would like to thank you guys for making such a useful CD. There must be countless hours of work put in it. Every bit of information is so easily accessible! I already started reading some early Palmtop Paper issues I missed before my subscription. Searching for any topic is instantaneous. Thank you for putting all the HP Palmtop information and programs that you have accumulated over the past 6 years in the CD. I'm very grateful to have it."

— Harry Konstas, Canada

1998 Issues/The HP Palmtop Paper

All 6 1998 issues of *The HP Palmtop Paper* have been merged into the gigantic Palmtop knowledge base for fast searches.

PC In Your Pocket and HP Palmtop Technical Reference Manual in HTML

From your desktop or Palmtop Web browser, now you can read Ed Keefe's classic containing 100's of ideas of practical uses of the HP Palmtop.

Programmers will appreciate a second copy of the Tech Reference Manual designed to be read using the HV Web Browser on the Palmtop.

More Gutenberg Etexts

Our second CD of Etexts is now completely full. Additional works from Verne, Huxley, Longfellow, Marx, Austen, HG Wells, Darwin, Woolfe, Lewis, London, Grey, Burroughs plus documents such as the Federalist Papers have been added for your Palmtop pleasure and reference.

Easy to use! Up in minutes!

SOFTWARE CAROUSEL

"Absolutely fabulous. Quick, everybody run out and buy Software Carousel!"

—Larry Nielsen

Great with 8/32/64MB DoubleSpeeds or Flash Card!

Talk about a Next Generation 200LX!

Combine Software Carousel (and especially **SUPER Software Carousel!**) with the speed and memory of an Upgraded Palmtop, and you're talking about unleashing the full potential of your palmtop!

Works with Flash card memory too! (Not quite as fast.)

So if you already have an Upgraded Palmtop, or you're thinking about it, Software Carousel is the ideal way to make the most of it!

And, of course, we offer a 30-Day Money-Back Guarantee so you can find out for yourself!

New Version: BUY or UPGRADE

Thaddeus Computing Software Carousel 7.0 fixes bugs from previous versions (6.8-6.92).

PLUS! An all new, greatly improved User's Guide makes learning and configuring much easier! Millions of people have purchased Software Carousel; and the Palmtop Edition, new or upgrade, is just too palmtop-enriching to pass up. But don't order until you've looked at **SUPER Software Carousel!**

How To Buy

Simple. If you only want Software Carousel (as opposed to **SUPER Software Carousel**), we'll send it on a 3.5 Disk with an easy-to-use User's Guide that will walk you through the installation and configuration process. You'll need at least 1MB of flash or C driver space on 100LX, 200LX or 1000CX.

Software Carousel NEW

How To Upgrade

*To take advantage of the Software Carousel Upgrade offer, you must supply Proof of Purchase of your current version. The easiest way to do this is to email us your serial number, or send us a photocopy of your Software Carousel Manual or your disk. We can also accept any other Proof of Purchase such as a receipt or confirmation from the company where you originally purchased. Fax, mail or email proof with your order.

Not just for the "technological elite"!

OK. It's true. Software Carousel has long appealed to the technologically elite. This elite understood the usefulness of switching between built-in applications and DOS sessions with a hot key and were willing to endure a techy manual that required experimentation.

Now Software Carousel is for the rest of us. *HP Palmtop Paper* editor, Ed Keefe, completely rewrote the user manual. His "Getting Started Tutorial" is all you need to be fully functional in less than an hour. Even better, choose Super Software Carousel and in five minutes you'll be using any of its 40 plus applications, and adding new applications.

Have up to 12 Palmtops in One!

An easy-to-use control panel allows you to customize up to 12 DOS and/or System Manager sessions to your exact needs.

Switch between DOS and Built-In programs as easily as you open NoteTaker!

Don't know what to do with all this new palmtop potential? Check out **SUPER Software Carousel** on the next page to see how Thaddeus Computing can save you many hours of loading and configuring, and provide you countless hours of happy and productive palmtopping!

Isn't It Time For A Second Machine?

Great gift or inexpensive buy for friend, co-worker, family member!

200LX PC in your Pocket. It's there when you need it.

The HP 200LX Advantage

IT'S USEFUL: The HP 200LX runs MS DOS software and comes with over 16 built-in apps. These include:

Memo Editor	Appointment Book	ToDo Manager	2 Games
Phone Book	Pocket Quicken	Lotus 1-2-3	World Time
HP Financial Calculator	Database	Data Communications	Macro Manager
Notetaker	MS DOS 5.0	Filer	Laplink Remote

IT'S AFFORDABLE: See pricing. Our pre-owned palmtops are tested, cleaned, warranted and upgraded.

IT'S MOBILE: The HP Palmtop with instant on, can be used anytime, anywhere, and run for weeks on standard AA batteries.

IT'S EASY-TO-USE: One-button-access to built-in programs (no installation); simple key-strokes for date, time, cut, copy, paste; multiple applications can remain open simultaneously; exceptionally stable operating environment.

TOP-QUALITY: Hewlett-Packard quality backed by Thaddeus Computing warranty.

16 of the many 1000's of ways you might use your palmtop:

Look up a phone number anywhere • Monitor your todo list • Budget • Create a shopping list • Access product information while "managing by walking around" • Solve a complicated financial or scientific numerical problem • Play chess • Finish a report in a cab • Track travel expenses • Retrieve customer's contact history in a meeting • Unobtrusively, take notes during class or meeting • Jot down idea while on a walk • Remind you of your spouses birthday • Convert currencies • Translate a phrase • Keep lists of CDs, credit cards, serial numbers, videos to rent

"I can compute anywhere, anytime making it more usable than a pricey laptop." —Edward A. Caine

"It's there when I need it. I'm able to accomplish real work while sitting in the yard, down by the lake, or on trips." —Fred Kaufman

"The Palmtop really is more like a Swiss Army knife than anything else. You can depend on it to help you out of a hairy situation." —Richard R. Liu

1000CX A "Pure" DOS Machine in your Pocket

The 1000CX is a 200LX without the built-in applications. All our 1000CXs come with a **supplemental disk** with some of the best palmtop DOS freeware and shareware in Zipped format. Included are a PIM, a word processor and spell checker, HTML viewer, DOS menu program, games and more.

The HP 1000CX is a cost-effective solution for individuals and companies who want to run DOS software in a pocket-sized platform.

Great Software

Personal Food Analyst

PRICED
TO SELL
\$19.95

(we just received
1000 copies!)

Your palmtop can help you lose weight, eat healthier, and increase your energy level!

1. Monitors and analyzes your food intake for calories, cholesterol, fats, proteins, carbohydrates, salts – for a total of 27 nutrients
2. Shows you how much you should be eating based on your weight goals, gender, and physical activity level
3. Built-in database of over 4000 foods used by USDA, hospitals, and universities

PFA is easy to use professional nutritional software designed for the Palmtop

Personal Food Analyst comes on a ROM card. It was designed for use on the HP 95LX and originally retailed for \$149 and later \$89. The easy-to-use program works well on the 100LX and 200LX. The program can be run from the ROM card. Alternatively, the program can be copied to and run from the C drive or another flash card.

From past Palmtop Paper...

"It's incredible what I thought was low fat until I entered it into PFA! ... It's also great for frequent travelers since it has many common restaurant items in its food database. I find it well worth the \$89."

TimeTracker/LX

Really want to manage your time better?

Then put TimeTracker/LX on your palmtop.

Time management professionals agree: the first step in making better use of your time, is to track how you use it. Seems easy, but the act of usefully tracking your time takes discipline, organization, and more time. It is one of those things most of us never get around to. With TimeTracker/LX you can make tracking your time easy and fun.

Here are just some of TimeTracker/LX's features: Easy to learn and use • designed for the HP Palmtop, so if you know how to use Phone, you know how to use it • great for professionals who bill customers by time • track starting and ending times, duration, activity type, client, and projects • many ways to view the collected information • requires minimal keying • reporting facility for sophisticated presentation of data • several report templates included • export to Lotus 1-2-3 or to word processors (in RTF) • on screen totals obtained with a few keystrokes.

Program authored by Andreas Garzotto, author of WWW/LX, HV, ABC/LX and PE.

Electronic Dictionary, Thesaurus,

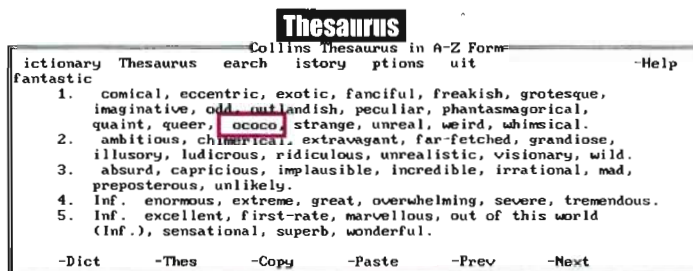

Electronic Dictionary & Thesaurus **BACK IN STOCK!**

190,000 Definitions & 270,000 Word Thesaurus

It's great having the official Collins English Dictionary (third edition updated) and Collins Thesaurus at your fingertips. The minimal typing feature scrolls through the wordlist as you type each letter. Because it's electronic you can find words in ways not possible with books. Besides being incredibly useful, an electronic dictionary is a fun way to learn about word origins and increase your vocabulary.

190,000 definitions. 16,000 encyclopedic entries. You'll find pronunciation, etymology, hyphenation points, antonyms, examples of words in use, in-depth information on how to use words appropriately. Dictionary entries include cities in Japan, rivers in Germany, business words, government terms, names, places, dates.

270,000 synonym Thesaurus grouped by parts of speech, or meaning, and directly linked to dictionary. You can look up words which appear within the dictionary or thesaurus definition. In this example, we look up "rococo" by moving the cursor and pressing F2 for dictionary definition or F3 for the thesaurus entry.

DEFINITIONS let us search the dictionary for all occurrences of a word in the dictionary, in this case "mathematics". Although a bit slow on the palmtop, you can also do boolean searches such as (french AND composer). **WILDCARD** lets you search for the word. For example: l??a (you remember the "l" and "a" is four letter word for Italian currency), "ntr" (all words containing "ntr"). Scrabble players and word puzzlers will appreciate the **ANAGRAM** feature. In addition, a history of words looked up in a session is easily accessible for backtracking.

"I'm a translator. I strongly recommend these Harper Collins products to anyone in the market for good Palmtop dictionaries."

—Tony D. Guzewicz, 74722.421@compuserve.com

"I love them. Nothing like being able to get a definition or confirm the spelling no matter where I am." —S. Todd, 70312.462@compuserve.com

For Your Palmtop!

Translation always accessible!

Multilingual Dictionary

Quick & accurate translations anytime!

German • French • Spanish • Italian

English to and from Spanish, French, German or Italian: Install any or all of the eight dictionaries onto your palmtop. One dictionary takes about 800K; all eight take less than 6 megabytes. Each dictionary pair contains over 75,000 references and 110,000 translations.

QUICK/ACCURATE TRANSLATIONS!

Near matching: Looks up the closest spelling of the word

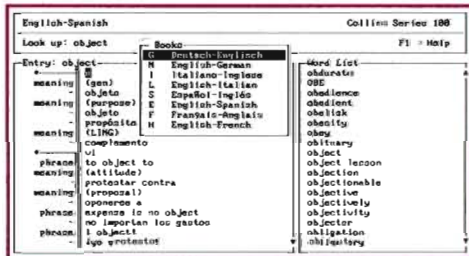

Meanings: Signposted for accurate translation

Minimal typing: Scrolls through the wordlist as you type each letter

Wildcard search: Using * and ? finds words when you don't know the spelling

Easy switching: Between all dictionaries

History: Displays recent lookups

Word List feature means little typing. Type a few letters and select. Meaning chart and phrases let you choose correct word. Switch between dictionaries at any time.

"I used a couple of translation products on my 200LX. S100 I still like best. You can install it on the desktop as a Windows product and you can install it as a DOS version. It is easy to use. I run one Software Carousel session with S100, so it is always available. You should try it, it is worthwhile."

—Helmuth Guenther

Available
worldwide

Most repairs only \$125 * #PTRS

Like Hewlett-Packard's repair service, Thaddeus Computing uses used parts to repair palmtops. Unlike HP, Thaddeus has a flat rate of \$125. * HP charges \$220. Save \$95!

Normally, we ship units back within five days of receiving them. So, whatever the problem, just send the palmtop in with a description of the problem and payment and we'll take care of it.

Free 90-Day Warranty

HP warranty voided by repair.

* Currently we are out of some used parts. If your screen or motherboard is bad and cannot be directly repaired, we must charge an additional \$50 to replace it with a new part (total comes to \$175).

"The doublespeed is definitely an improvement, but the repairs you did are topnotch. You even fixed a couple of things that I didn't request. You have earned a lifetime customer!"

— Anthony Tenorio

Another way to print from your palmtop!

If you need fast printing and back up, we recommend the Trans Digital PC Card.

However, you may just need to print occasionally, your PC card slot may be already occupied, or you want a more economical solution. In

that case we recommend the Greenwich Instruments Serial-to-Parallel Printer Cable.

Simply plug the 10 pin serial end into the palmtop. Plug the other end into the printer. Follow the 30-second instructions to make sure palmtop is correctly configured. Then print from MEMO, 1-2-3, Phone, other built-ins, or your favorite DOS program.

4 Great Ways

to fill your palmtop's PC Card slot!

1 Flash storage cards

NEW SanDisk PC Cards!

Up to **220 MB**

Our research reveals that SanDisk cards yield longer palmtop battery life, strong performance, and minimum startup delays. SanDisk invented the ATA flash card, and Hewlett-Packard uses SanDisk as the manufacturer for its line of PC Cards. Until recently, we carried the competition which offered higher capacity cards for less. Now, with recent price cuts and new offerings, we feel SanDisk offers the best value for Palmtop customers.

CompactFlash™ cards with Type II adapters

For lower capacity, CompactFlash™ cards with Type II adapters offer more flexibility and better performance than standard Type II cards. CompactFlash works in HP palmtops, Windows CE handhelds, laptops, desktops with card readers, and in most digital cameras.

2 The Trans Digital Parallel Port PC Card

Especially useful for Upgraded-Memory Palmtops!

IF YOU HAVE any HP palmtop with 4 or more megs of memory, then you either know how long it takes to back up... or you're not backing up. (Not backing up is not a solution.)

And if you ever print from the HP palmtop, or want to, you might find it a rather cumbersome process. There are many times when you might have the need to upload, download, backup, print or transfer large amounts of data. Having a parallel port on your palmtop makes it fast and easy.

Filer-like and XCOPY-like software is already in the Trans Digital PC Card's low-power flash ROM for fast backup and file transfer. Setup is easy, and transfer is extremely fast and straightforward. This can be important to any palmtop owner, but it is critical when you have many megabytes of data to transfer and protect.

Except for the lack of a parallel port, the HP Palmtop has always been like a DOS PC in your pocket. Now the similarity is complete, and now your palmtop can have the full speed connectivity of a desktop!

Special Feature for Upgraded Palmtop owners:

Our version of the Trans Digital PC Card also has the drivers DoubleSpeed and Upgraded-Memory palmtops need in its flash memory! Yes, these drivers have already been supplied on a floppy, but it's nice to have them on a flash card for those unexpected little disasters. Very nice.

"I got the Trans Digital card working with my Zip drive in about 5 minutes. Very cool. I feel much safer now that my 32MB internal disk is safely backed up to a Zip disk." —*Mitch Hamm, www.palmtop.net*

"The Trans Digital PC Card is by far the best piece of hardware I have for my double speed 32MB upgraded HP200LX" —*Peter Massicott 102425.142@compuserve.com*

Inexpensive low-power solution

Ideal for users of upgraded palmtops!

Before buying four hundred of these lower-powered modems, we asked Mack Baggette of Times2Tech for his recommendation. In his tests Mack found the battery drain of this modem, when in the palmtop, but not in use, to be half that of Megahertz modem — the best he had ever seen*. It is unlikely we will be able to find as good a product for the palmtop. So if you are interested, we suggest you buy now while supplies are available.

EXP's Fax, Modem and Storage

...all in one battery-powered PC Card!

The folks at EXP have really expanded Palmtop usefulness.

PROBLEM: If you use the PC Card slot for a fax/modem card, you must store data and communications software on the C drive. Doing so will be difficult or impossible on a 1 or 2 meg palmtop. Most upgraded palmtop users can always use more disk space especially for variable length E-mail and web documents.

THE EXP SOLUTION: Add 8 MB of flash storage to the fax/modem card.

PROBLEM: All PC card modems drain palmtop batteries. Usually 14.4 bps is the fastest possible.

THE EXP SOLUTION: Include a battery pack so PC Card modem can run 90 minutes without draining palmtop batteries. Increase speed to maximum of 33.6 bps modem.

PROBLEM: Most fax software is large and written for Windows.

SOLUTION: Include easy-to-use and easy-to-install fax software on fax/modem card with the look and feel of other built-in applications.

Many of us have become HP Palmtop evangelists. We use the Palmtop all the time, we keep discovering ways to use it to make us more effective. Isn't it time to own an upgraded unit?

'99 CD+ Affordable Upgrades and Palmtops

The new '99 CD InfoBase is jammed full of information and software so you can be more effective with your palmtop. If you don't own one you should.

The big news is that manufacturing costs for memory and speed upgrades have dropped. We have also recently made a large buy on corporate owned HP 200LX's. That means you can now purchase a used 8 meg palmtop for \$399. Or check out a 32 meg palmtop for \$599, the same price as a new 4 meg HP 200LX! See page 8.
